PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
114210		F-35 ROLLER CABINET AVIATION Inclined drawers, side cabinet, HDFI, FT Custom Aviation Roller Cabinet custom designed specifically to meet the varied needs of F-35 daily maintenance. Configuration: • F-35 custom tool content • HDFI custom engraved inserts • Laser etching for Tool ID More info 
G2082		F-35 COMBINED SERVICING INSPECTION KIT Provides a tailored assortment of hand tools required to support common maintenance tasks, such as BOS, POS, IOS, and health checks for F-35. Toolkit Crew More info 
110100		F-35 END OF RUNWAY KIT The EOR Kit is optimized for use in both permanent airbases and deployed environments, ensuring reliable performance in harsh conditions. It supports key activities such as quick inspections, and immediate operational support to help minimize downtime and keep aircraft mission-ready. The kit provides essential equipment for rapid response, operational readiness, and ground support during F-35 missions. More info 
111311		F-35 UTILITY FLIGHT CASE FOR PILOTS PERSONAL Personal utility flight case that fits all F-35 pilot flight equipment (PFE). This solution replaces standard flight equipment bag and is tested and recommended by Norwegian F-35 pilots More info 

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
124935		F-35 WASH KIT Complete wash cover kit for F-35. Provides reusable wash covers, removing the need for one time use "Barrier Paper". Includes: • Cover Canopy F-35 • Cover Camera F-35 • Cover Nose wheel F-35 • Cover main wheel L/H • Cover main wheel R/H • 39 ea. sensor covers • 4 ea. tape • HDFI custom fitted More info 
114965		F-35 DIVERT KIT Customized divert kit for F-35 with selected tools and our HDFI solution for optimized solution and care. Hardback case solution IP67 Rated for water and dust protection Automatic pressure equalization valve that keeps water and dust out. Customized HDFI insert with shock absorbing function, engravable text, art.no, logo More info 
122723		F-35 AME 3 ALTERNATE MISSION EQUIPMENT Custom fitted box with our HDFI for a range of mission-specific, interchangeable equipment. More info  
126236		F-35 HORIZONTAL STABILIZER SUPPORT STRUTS The Horizontal Stabilizer Support Strut is designed to replace the F-35 program jack stand used to support horizontal stabilizers during maintenance operations. Engineered to be lighter, more mobile, and more efficient, it enhances both workflow and operational flexibility. Designed with safety in mind, our stabilizer support strut will crumple under excessive force, allowing Aircraft stabilizers to center safely. More Info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
124604	 Finland example:	F-35 ENGINE AIR INTAKE / EXHAUST PLUG / 3 PCS SET 3 pcs set, Custom, F-35, FTC Custom fitted set for F-35 . Squadron logo & design custom fitted by customers choice. • 1 Ea. Engine Exhaust plug for F-35 • 1 Ea. Engine Air inlet plug L/H F-35 • 1 Ea. Engine Air inlet plug R/H F-35 Models: A, B & C More info 
122946		F-35 PITOT PROBE COVERS CUSTOM F-35 Fabric Pitot Probe Cover set. Fabric with heat resistant liner. 2 ea. Covers: 1 ea. left - 1 ea. right. All models: A, B & C More info 
122947		F-35 POWER & THERMAL MANAGEMENT SYSTEM PLUG Custom fitted Cover for the F-35 Power & Thermal Management System (PTMS) Fabric with heat resistant liner. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
124249		F-35 INFLATABLE ENGINE PLUG SET WITH PUMP A/C Lightweight & Compact – 41% lighter and 94% less volume compared to foam plugs. Fast Deployment – Inflate in under 50 seconds with the included pump. Durable Construction – Stable in all temperature conditions, ensuring long service life. Quick Stowage – Deflates in seconds for easy packing and redeployment. Custom Branding – Squadron or unit logos can be printed in high-definition (up to 15" diameter). More info 
124248		F-35 ACE KIT COMPLETE PLUG SET A/C The Agile Combat Employment (ACE) kit for the F-35 contains a complete set of inflatable plugs and accessories. This kit offers a rapid, space-efficient, and reliable solution for protecting the F-35's engine intakes, exhausts, and PMAC flush ports when operating from austere or temporary bases. Plugs are inflatable, reducing stowage volume while providing secure sealing protection when deployed. Supplied in a rugged military-grade storage bag (400 × 760 × 360 mm). More info 
123013		F-35 CANOPY COVER MAGNETIC MULTI FUNCTION A/C Unlike traditional covers, the magnetic canopy cover can be stored in a compact compartment on the aircraft. This portability improves mission flexibility and minimizes the logistical burden. Since the cover remain with the aircraft wherever it lands, crews can quickly ensuring the jet is always protected. Models: A & C More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
124244		F-35 PMAC FLUSH PORT MODULE COVER - LEFT Attached Multi-Function Pitot Probe Cover, Kit Flush Port Module Magnetic Cover for F-35 LEFT side Attached F-35 Multi function molded polyurethane Pitot Probe Cover All models: A, B & C More info 
124245		F-35 PMAC FLUSH PORT MODULE COVER - RIGHT Attached Multi-Function Pitot Probe Cover, Kit Flush Port Module Magnetic Cover for F-35 RIGHT side Attached F-35 Multi function molded polyurethane Pitot Probe Cover All models: A, B & C More info 
124943		F-35 PMAC FLUSH PORT MODULE COVER - LEFT & RIGHT Attached Multi-Function Pitot Probe Covers, Kit - both sides Flush Port Module Magnetic Cover for F-35 for Both sides Attached F-35 Multi function molded polyurethane Pitot Probe Covers All models: A, B & C More info 
124944		F-35 PITOT PROBE COVER MULTIFUNCTION F-35 Multifunction Probe Cover provides comparable environmental protection to OEM equipment. We've engineered our probe cover for line-to-line fitment. The molded polyurethane seals the probe from the elements without damaging 5th generation LO coatings. The fit is secure, even during the most extreme weather, and can withstand winds above 100mph. Our urethane includes additives that will resist degradation from prolonged UV exposure. All models: A, B & C More info 

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
F8308		F-35 DRAG CHUTE SYSTEMS REFURBISHMENT KIT for F-35A Drag-Chute More info
F8309		F-35 DRAG CHUTE SYSTEMS CONSUMABLE KIT for F-35A Drag-Chute More info
120506	 	CUBE DRYING TOWER, MOBILE Drying Tower for 6 ea. Drag Chutes / deployment. The Mobile Drag Chute Drying Tower offers an unparalleled solution for drying AC drag chutes during deployment. Capacity of drying 6 ea. drag chutes in each batch. 8FT - Alu. module - fitted for C-130 Hercules. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
122631		F-35 FULL WRAP-AROUND WORK STAND SET FT Aviation aim to provide a comprehensive design solution to meets client requirements, ensuring the highest levels of safety and job efficiency are achieved. Our maintenance stands for F-35, includes 9 modules. Equipment required for maintenance can be integrated into the module. More info 
123060		F-35 LINE MAINTENANCE SERVICE MODUL Our Line Maintenance Service Module is the next evolution of maintenance working platforms designed specifically for F-35 line maintenance. Constructed with lightweight aluminum and equipped with non-slip material and rubber bumper edges, preventing damage to aircraft. Line Maintenance Service module is ideal for easy and secure pilot ingress and egress from cockpit. More info 
122692		F-35 TAIL STAND SERVICE MODUL Our F-35 Tail Stand - maintenance platform is tailored to support operations on the F-35A. Designed with precision, safety, and modularity in mind, it allows reliable and ergonomic access to critical rear fuselage areas, including the exhaust and drag chute, enhancing the efficiency of ground crew operations. More info 

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
119742		CABINET FOR RAILING SERVICE MODULES Cabinet fittet under our Aviation work table. Special fitted shelves with og without HDFI solutions More info
119743		WORKTABLE FOR RAILING SERVICE MODULES Worktable in aluminum custom fitted to the fuselage stand railing More info
119744		INLAY FOR WORKTABLE SERVICE MODULES Angle inlay for worktable in aluminum for PC/computer More info
119745		RACKING STORAGE AIRCRAFT SERVICE MODULES Storage racking for our Fuselage module stand - storage aircraft parts Flexible space between deviders. 6 ea. deviders More info

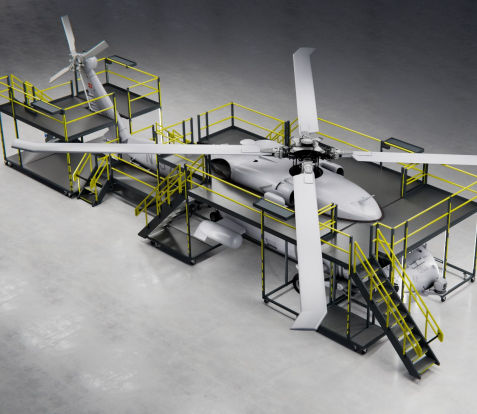

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
120451		F-35 DEPLOYMENT CAGE MAIN/NOSE WHEEL For Container, Deployment, storage. Storage and transportation cage for F-35 wheels, accommodating 3 pcs rear wheels or 4 pcs nose wheels, with all surfaces that contact the wheels coated with a soft material to protect the wheels during transport. More info 
120570		F-35 BAG FOR NOSE WHEEL Custom made wheel bag designed specifically for F-35 nose wheels. Crafted with a strong PEHD plate at the base (inside bag) where the bag is constructed from durable PVC/canvas material for secure storage. The bag's interior is lined with a gentle material designed to safeguard the wheels during transportation. Equipped with sturdy handles on each side of the bag, allowing two individuals to safely transport the bag with ease. More info 
120547		F-35 BAG FOR MAIN WHEEL Custom made wheel bag designed specifically for F-35 rear wheels. Crafted with a strong PEHD plate at the base (inside bag) where the bag is constructed from durable PVC/canvas material for secure storage. The bag's interior is lined with a gentle material designed to safeguard the wheels during transportation. Equipped with sturdy handles on each side of the bag, allowing two individuals to safely transport the bag with ease. More info 
122434		F-35 COAX CABLE TOOL CROWFOOT 5PC SET Upgrade kit with coax cable tool crowfoot crafted from high-quality AISI 4340-hardness material and high-quality Hardox 450 material in claw. The kit includes 5 pcs Coax cable tools custom-fitted in our HDFI solution and Opticase 01 box More info 

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
119700		F-16 COMBINED SERVICING INSPECTION KIT Provides a tailored assortment of hand tools required to support common maintenance tasks, and health checks for F-16. Toolkit Crew More info 
119765		F-16 ROLLER CABINET AVIATION Inclined drawers, side cabinet, HDFI, FTC Aviation Roller Cabinet custom designed specifically to meet the varied needs of F-16 daily maintenance. Configuration: F-16 custom tool content HDFI engraved inserts Laser etching for Tool ID More info 
119405		F-16 AIRCRAFT SERVICE MAINTENANCE MODULE The F-16 Fuselage Stands / Service Maintenance Modules (4 pcs) represent the cutting-edge in next-generation maintenance platforms. These stands are meticulously tailored to the unique contours of the F-16 fuselage, offering an optimal workspace. They excel in cockpit maintenance, ejection seat servicing, canopy care, aircraft body and other forward component tasks, boasting a built-in PMA desk for added convenience. More info 

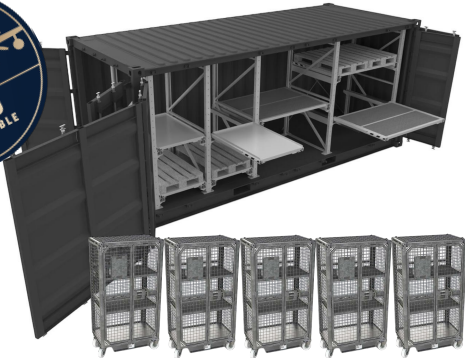

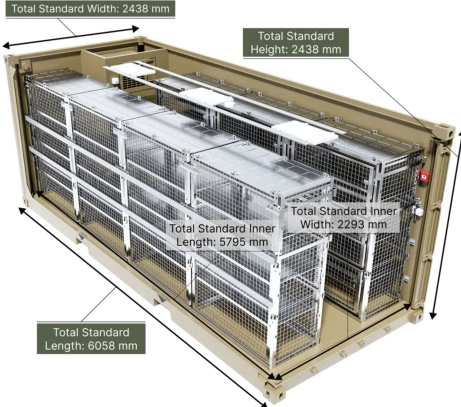

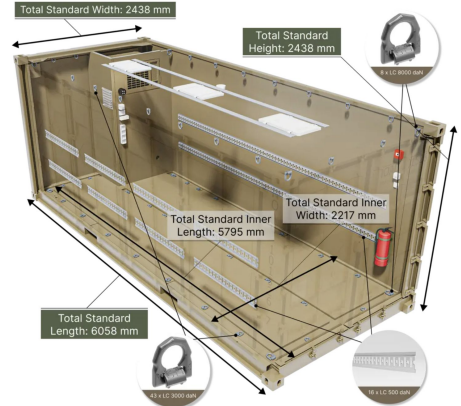

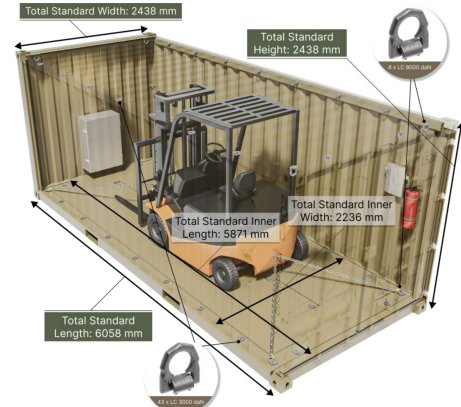

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
125387		MH-60R LINE MAINTENANCE DOCKING MODULES Our Line stands for MH60R Seahawk, includes several modules. Designed and configured to fit specific airframe contours such as airframe, engines, and tail shapes. The docking system will ideally fulfill the requirements performing all modification/ maintenance tasks on the rotary aircraft. More info
125386		MH-60R BASE MAINTENANCE DOCKING MODULES Our wrap-around stands for MH60R Seahawk, includes several modules. Designed and configured to fit specific airframe contours such as airframe, engines, and tail shapes. The docking system will ideally fulfill the requirements performing all modification/ maintenance tasks on the rotary aircraft. More info

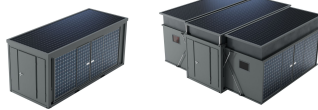

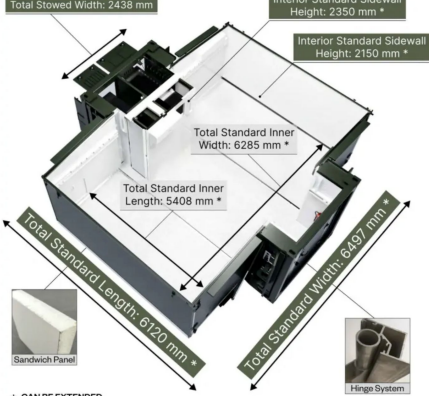

DEPLOYMENT

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
120506 		CUBE DRYING TOWER, MOBILE Drying Tower for 6 ea. Drag Chutes / deployment. The Mobile Drag Chute Drying Tower offers an unparalleled solution for drying AC drag chutes during deployment. Capacity of drying 6 ea. drag chutes in each batch. 8FT - Alu. module - fitted for C-130 Hercules. More info
119351 		CUBE MAINTENANCE WORKSTATION, MOBILE Aircraft Maintenance workstation, Deployment. Storage solution for tools, accessories and parts. 8FT - Alu. module - fitted for C-130 Hercules. Your turnkey solution for daily operation and deployment use - Always primed for action! Configuration: • 4 ea. Roller curtains • 4 ea. Storage system for each opening (shelves & drawers) • 4 ea. Workstations with power • 4 ea. industrial Stools Complete CUBE base More info
114280 		CUBE MAINTENANCE DEPLOYMENT STATION CUBE, Tools, Accessories & parts, RAL 7012, FT 8FT - Alu. module - fitted for C-130 Hercules. Your turnkey solution for daily operation and deployment use - Always primed for action! Configuration: • 4 ea. Dual half Doors • 1 ea. Drawer & shelf section • 1 ea. Office solution • 2 ea. Open sections • Complete CUBE base More info
113556 		CONTAINER HEAVY LOAD 20' FULL ACCESS RAL 7012 Grey, Low Cube, Custom, FT 20 foot low cube container including Heavy Loads racking system for Aviation Ground Support Equipment. Can be custom fitted to each and every GSE product to maximize deployment efficiency. 30 pallet spaces. Pull out shelving. Aviation aluminium pallets available. Fitted for Hercules C-130, C5 or C17 airfreighter. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
114738 		CONTAINER HEAVY LOAD 20F RIGHTSIDE ACCESS RAL 7012 Grey, Low Cube, Custom, FT (Fitted for C-130 Hercules) 20 foot low cube container including Heavy Load racking system for Aviation Ground Support Equipment (GSE) Content: • Racking one side side - Heavy duty • 5 ea. Tactical locker CWM • Power intake, lights More info
126228		F-35 CARGO CONTAINER ISO CSC 20F The F-35 cargo container is an insulated, CSC-certified 1C unit compliant with ISO 668 and ISO 1496-1 standards. It features an end-opening design for safe and efficient access, along with a modular shelving and cabinet system that can be easily reconfigured or removed without special tools. The container also includes a foldable work desk with double Schuko 230 V AC outlets, providing a flexible and adaptable solution for various operational needs. More info
126229		F-35 BULK CONTAINER ISO CSC 20F The F-35 bulk container is a durable, CSC-certified 1C unit compliant with ISO 668 and ISO 1496-1 standards. It features an insulated steel construction for thermal protection, along with end-door and full side-opening access for safe and efficient handling of bulk materials and mission-critical equipment. More info
126230		F-35 TRANSPORT CONTAINER ISO CSC 20F The F-35 transport container is a robust, CSC-certified 1C unit compliant with ISO 668 and ISO 1496-1 standards. Designed for demanding civil and military operations, it provides safe transport and storage of mission-critical equipment with a reinforced steel structure, efficient handling, and full compatibility with global transport systems. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
122735		4 IN 1 FLEXMODULE 3-WAYS EXPANDABLE 20F No more earplugs and hearing protection! 20FT Low Cube - fitted for C-130 Hercules Our Standard FlexModul includes UPS and Solarfoil, featuring high-durability battery solutions, inverters, and screen displays, all integrated with an exterior coating of solarfoil on the container's surface. The interior of the FlexModul can be customized / built to meet the specific needs of the client. More info 
126172	 Total Stowed Width: 2438 mm Interior Standard Sidewall Height: 2350 mm * Interior Standard Sidewall Height: 2150 mm * Total Standard Inner Width: 6285 mm * Total Standard Inner Length: 5408 mm * Total Standard Length: 6120 mm * Total Standard Width: 6497 mm * Sandwich Panel Hinge System * CAN BE EXTENDED	3 IN 1 EXPANDABLE SHELTER ISO CSC 20F The 3-in-1 expandable shelter has been in continuous production for over 15 years and is used worldwide in demanding environments. Built with an ISO-certified steel frame, aluminium hinge system, sandwich panels, and heavy-duty seals, it delivers exceptional durability and reliable performance in harsh climatic and operational conditions. Designed for highly mobile applications, it provides a dependable and comfortable self-sufficient working environment. More info
126231		3 IN 1 MOBILE HOSPITAL ISO CSC 20F The Mobile Hospital system consists of 3-in-1 expandable shelters developed in specialized configurations for medical missions worldwide. The modular and rapidly deployable solution includes operating theatres, intensive care units, treatment areas, diagnostic suites, vaccination units, and medical storage facilities. Designed for highly mobile healthcare operations, it provides a reliable, fully functional, and self-sufficient medical environment in virtually any scenario. More info

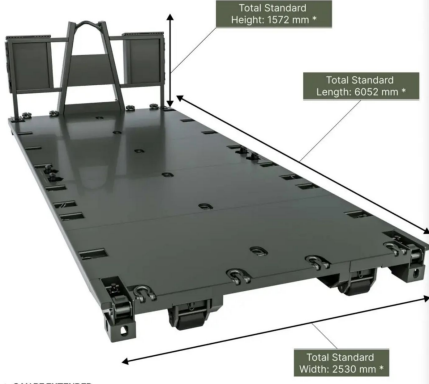

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
126272		3-IN-1 TIRE REPAIR WORKSHOP 20F CSC, ISO The solution is built into a 20-foot ISO 3-in-1 expanding shelter that can quickly unfold into a complete workshop with a total floor area of 32 m², including a separate technical compartment. Designed as a true “plug & play” system, the shelter can be deployed and fully operational in less than 15 minutes by only two people. This makes it highly suitable for military operations, construction sites, mining industries, emergency response, and other remote locations where rapid maintenance capability is required. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
126232		REEFER CONTAINER ISO CSC 20F The 20-foot reefer shelter is a mobile, temperature-controlled 3-in-1 expandable shelter designed for demanding field operations. Equipped with a diesel-electric cooling and heating system, it ensures reliable climate control in temperatures from -32°C to +49°C using either diesel power or external electricity. Built on a robust ISO frame with a STANAG hooklift interface, it is ideal for storing temperature-sensitive equipment, supplies, and medical materials in harsh environments. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
126273		RESCUE DEPOT SHELTER ISO CSC The Rescue Depot Shelter is built on a hooklift frame according to the SS3021 standard, ensuring reliable handling and transport. It features insulated aluminium construction with separate workshop, kitchen, rest, and storage areas that support organized and efficient field operations. Integrated electrical, HVAC, lighting, and an water systems provide vid stable performance during both short missions and continuous use. Designed for quick deployment and practical daily work, the Rescue Depot Shelter offers a dependable platform for rescue and emergency service activities. More info
126274		HOOKLIFT SPECIAL SHELTER CSC ISO 20F The Hooklift/Special Shelters are mission-ready container units engineered for flexible and demanding field operations. Designed around rapid mobility, each unit is built for specialized roles such as refrigerated storage, sanitation, workshops, communications, equipment staging, and more. The shelters combine reinforced construction with high durability and full customization to meet functional and technical needs across civilian and military missions. Whether ether required for logistics, protection, or mission-essential tasks, the Hooklift/Special Shelters ensure dependable performance wherever deployment is needed. More info
		FLATRACK CSC A versatile and proven logistics platform, the Flatrack is a key component of the Norwegian Armed Forces' RMMV hook-lift transport system. Built to ISO and STANAG standards, it offers high payload capacity and can be stacked up to four units high for efficient deployment. Delivered in over a hundred units, the flatrack is adaptable for transporting containers, palletized goods, and vehicles, including M113, BV 206, and other vehicle classes under 15 tons. Integrated lashing points and front-mounted toolboxes can be customized to meet specific operational needs, ensuring flexibility across a wide range of cargo types. More Info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
116616		TACTICAL LOCKER CWM For Container, Deployment, storage. Rolling cage with forklift pockets, sling loading points, locking mechanism compatible with padlock, corrosion protected by hot-dip galvanization, cargo net on the top, includes weather cover and bracing. More info
114301		TACTICAL LOCKER CWL For Container, Deployment, storage. Double doors secured by one standard padlock. The unique design ensures high capacity to weight ratio and maximum internal to external volume. Multiple shelf positions, and the shelves are removable. Ideal for transforming a 20ft container into a mobile warehouse with full access through the center aisle in transport or storage. Eight cages fill one 20ft container, leaving the center aisle open, while twelve cages fill the container completely. More info
123032		TACTICAL LOCKER WHL CWL For Container, Deployment, storage. This rolling cage is designed for versatile use in demanding environments. It features forklift pockets and sling loading points, ensuring safe and efficient handling during transport. A locking mechanism compatible with padlocks provides secure storage for your items, giving you peace of mind in transit or storage. More info
114302		TACTICAL LOCKER MEDIUM For Container, Deployment, storage. Designed to maximize the TRICON, but also utilizes the available space on the CROP, 20ft container and PLS. Content inside the cage is accessed easily through the double doors. More info

ENERGY

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
119906	 	POWER CUBE HYBRID 454541 GREEN ENERGY Compressor, Generator, UPS & Solarfoil solutions. All-in-One high performance hybrid generator and air compressor system 70-90% reduction on fuel and noise compared to traditional generators. More powerful! More info
123437	 	HYBRID POWER CUBE 3000 WITH GENERATOR, UPS AND SOLARPANEL SOLUTION Introducing our advanced Hybrid Power Cube 3000. This innovative solution offers a substantial reduction in noise and fuel consumption compared to conventional systems. It features an integrated generator, fuel tank, UPS, and a solarpanel solution to enhance solar energy reception. More info

PART NO	PRODUCT PICTURE	PRODUCT DESCRIPTION
122920		MOBILE POWER UNIT 1000 TRAILER High Performance hybrid power trailer with generator and UPS battery solution. • 12-15kW charge / 24kVA inverters / 21,5kWh battery capacity • Inverters: 3 x 8 kVA , 24 kVA nominal power • Peak current of 46 Kw 60 - 90% reduced fuel consumption and Noise! More info
122919		MOBILE POWER UNIT 2000 TRAILER High Performance hybrid power trailer with generator and UPS battery solution. • 50kW charge / 45kVA inverters / 28,5kWh battery capacity • Inverters: 3 x 15 kVA , 45 kVA nominal power • Peak current of 81 Kw 60 - 90% reduced fuel consumption and Noise! More info
121381		MOBILE POWER UNIT 3000 TRAILER High Performance hybrid power trailer with generator and UPS battery solution. • 45-50kW charge / 90-144kVA inverters / 41-81kWh battery capacity • Inverters: 3 x 15 kVA , 45 kVA nominal power • Peak current of 81 Kw 60 - 90% reduced fuel consumption and Noise! More info

BUILT ON TRUST - DRIVEN BY PURPOSE

FT Aviation AS was established as a joint venture between Fosen Tools and Aircontact Services, in direct response to the growing demand for agile, robust, and efficiency-driven defense solutions. Built on successful collaboration since 2018, FT Aviation represents a strategic fusion of industrial strength and operational expertise.

Proven Expertise and Complementary Strengths

Fosen Tools and Aircontact Services combine decades of expertise to deliver advanced, mission-ready solutions for defense and high-readiness environments.

Fosen Tools excels in the design and production of robust ground support and deployment systems, while Aircontact Services brings proven capabilities in aircraft operations, maintenance, logistics, procurement, and compliance—aligned with NATO and international standards.

Together, we offer a powerful blend of operational insight and regulatory precision.

Driven by ethics, innovation, and sustainability, we deliver reliable, efficient driven solutions tailored for critical missions and demanding conditions.

Industrigata 1, Brekstad, Norway

Flyplassvegen 180, 4055 Sola, Norway

Karenslyst Allé 49, 0279 Oslo, Norway

Designed With the End User in Focus

Our products are shaped by real-world defense experience, particularly in close collaboration with the Air Force. From modular ground units to full deployable platforms, FT Aviation offers mobile, reliable, and rapid-response systems tailored for field operations.

A Partnership Built on Trust

FT Aviation is more than a joint venture – it's a trusted alliance grounded in shared values, mutual respect, and continuous innovation. The synergy between our teams gives us a unique edge in delivering high-quality, future-ready solutions.

Ready for Tomorrow

We are committed to supporting armed forces and emergency operations with technology and services that meet evolving standards and sustainability goals. Whether at home or abroad, FT Aviation enables faster, safer, and more efficient air operations – wherever the mission leads.

FT Aviation AS | Industrigata 1, 7130 Brekstad | NORWAY
